Please elaborate why and in what way

I.e. it's challenging, interesting, rewarding etc.

It was rewarding learning new words in a foreign language, and the instant feedback in regard to which words needed more attention made me more likely to keep doing exercises.

I believe completing Zeeguu exercises regularly would make me learn more words in the language I'm studying.

Please elaborate why and in what way

The exercises are easy to understand and the repetition with difficult words would certainly help me in learning new words in the language I am studying.

I believe completing Zeeguu exercises regularly would make me remember learned words more efficiently.

	1	2	3	4	5	6	7	8	9	10	
I don't agree	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	I fully agree

Please elaborate why and in what way

That the exercises kept using some of the same words made them easier to remember, and using them in the context of an article I had read.

How fun did you find the exercises?

	1	2	3	4	5	6	7	8	9	10	
Not fun at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very fun

Please elaborate why and in what way

The type of exercises were good because they both used writing and sound, so you could improve the pronunciation of the words too. However the "hint" function did not help me much since it could only be used to give the first letter in a word, and I sometimes could have used more hints.

How difficult did you find the exercises?

	1	2	3	4	5	6	7	8	9	10	
Not difficult at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very difficult

Please elaborate why and in what way

They were pretty difficult because I am not great at Spanish, but I did not feel they were too difficult for my level, and I believe they have to be a little difficult if I am to learn from them.

I.e. it more/less fun, challenging, interesting, rewarding etc.

I thought it made it more interesting also learning the pronunciation of some of the words, and the different types of exercises generally made it more engaging.

Please elaborate why and in what way

It was difficult if I was unsure about the word, and the hint button could only give me the first letter, so it was difficult to solve it if it was a word with a difficult spelling.

The more words you know the pronunciation of, the easier it becomes to understand the language when hearing it, even if you don't know every word in the sentence.

Your thoughts on improvements for the Zeeguu exercises

In this section we'd like you to comment on potential improvements, big or small.

What would improve your learning outcome when completing Zeeguu exercises?

The hint function could be optimized, which I think would help the learning curve, especially in regard to longer and more difficult words.

What changes/improvements to the Zeeguu exercises would make you more motivated to learn?

I think an even greater variety in types of exercises. I sometimes found it kept using words in exercises I felt comfortable with the previous days, so maybe the exercises could use a greater number of words from the pool i chose while reading the article.

What improvement would make the Zeeguu exercises more fun?

Perhaps it could be more fun if you could have questions based on more articles (I don't know if this is already possible). It would keep some of the exercise-types more fresh to see words in different sentences. Or perhaps it could have som standard phrases, so you could see the exercise-words in more situations.

Please elaborate if you have further comments regarding your experience with the exercises in general

Thank you so much!

1 2 3 4 5 6 7 8 9 10

I don't agree ☐ ☐ ☐ ☐ ☐ ☐ ☒ ☐ ☐ ☐ I fully agree

Please elaborate why and in what way

I.e. it's challenging, interesting, rewarding etc.

The exercises provide an easy way to structure the learning process, making it easier to identify the problem areas of my learning. The fact that the exercises are quite simple also makes it less daunting to learn the language, which makes it more likely that I'll actually do the exercises.

I believe completing Zeeguu exercises regularly would make me learn more words in the language I'm studying.

1 2 3 4 5 6 7 8 9 10

I don't agree

☐☐☐☐☒☐☐☐☐☐

I fully agree

Please elaborate why and in what way

I feel like the exercises helped, but at the same time, a lot of the exercises focused on the same words (maybe I should have read more articles before starting the exercises). I kind of felt like I knew a word pretty well, but the exercises would keep on using that word, instead of giving me a new word, which felt kind of frustrating towards the end.

I believe completing Zeeguu exercises regularly would make me remember learned words more efficiently.

1 2 3 4 5 6 7 8 9 10

I don't agree

☐☐☐☐☐☐☒☐☐☐

I fully agree

Please elaborate why and in what way

I believe this to be the case, as I got the same words over and over, and I remembered them as soon as I saw/heard them. Repetition is an effective device for remembering.

How fun did you find the exercises?

	1	2	3	4	5	6	7	8	9	10	
Not fun at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very fun

Please elaborate why and in what way

I found the exercises to be pretty easily understandable and engaging, but perhaps more variation could make them more fun, as fun wouldn't be the first word i would use to describe them.

How difficult did you find the exercises?

	1	2	3	4	5	6	7	8	9	10	
Not difficult at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very difficult

Please elaborate why and in what way

I mainly had difficulty with the exercises that included spelling, as my spelling is far from flawless (especially in german). But other than that, the exercises was pretty straight forward and easy to do, which gave me a sense of progress that I enjoyed.

Your experience with the audio-based exerices

Two of the exercise types included sound. In this section you must reflect on these exercises specifically.

Please rate from 1-10 how much you agree with the following statements:

The inclusion of audio-based exercises on Zeeguu makes me likely to study more often using the Zeeguu exercises \*

Please elaborate why and in what way

I.e. it more/less fun, challenging, interesting, rewarding etc.

Hearing a language is key to learning it, however the google-translate voice often made it quite difficult to hear the actual pronontiation of the word. I also feel that the varriation the audio-based exercises bring is imporant, as the exercies might get borning if they're all the same.

I believe using Zeeguu with the inclusion of audio-based exercises would make me learn more words (versus no audio-based exercises) \*

	1	2	3	4	5	6	7	8	9	10

Please elaborate why and in what way

Personally I've always been quite good at reading other langauges and understanding the written word, so I don't think it would affect my learning that much. However the audio-based exercises forces you to think of and use the words in a different way, which I think is an important part of learning new languages.

Please elaborate why and in what way

I ended up memorizing the bad google-translate pronontiations of the words, so Im sure that the audio helps with remembering.

The audio-based exercises improved my exercise experience \*

Please elaborate why and in what way

I think that the audio-based exercises helped through the variation that they brought. I might have preferred the written exercises, but I feel like the audio-exercises were a good suplement, as they made you think of the words in a slightly different way.

How difficult did you find this exercise compared to the existing text-based ones? \*

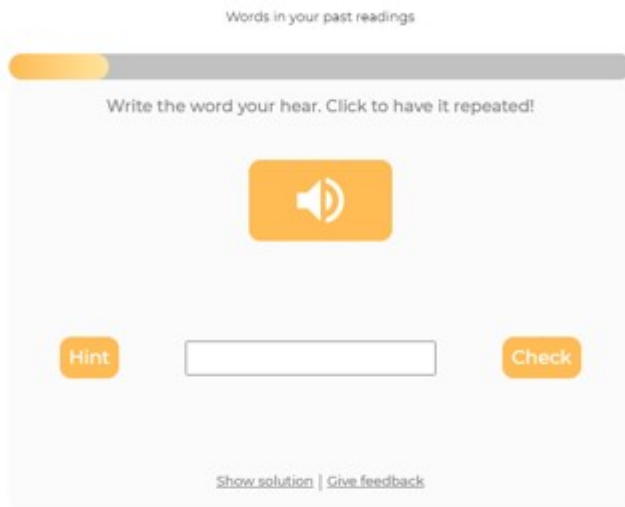

Fig 1. Audio exercise one.

Please elaborate why and in what way

This one was very difficult for me, as the pronontiation of the google-translate voice and the fact that most of the words were quite difficult to spell, really made me click the show solution button more than once.

How difficult did you find this exercise compared to the existing text-based ones? \*

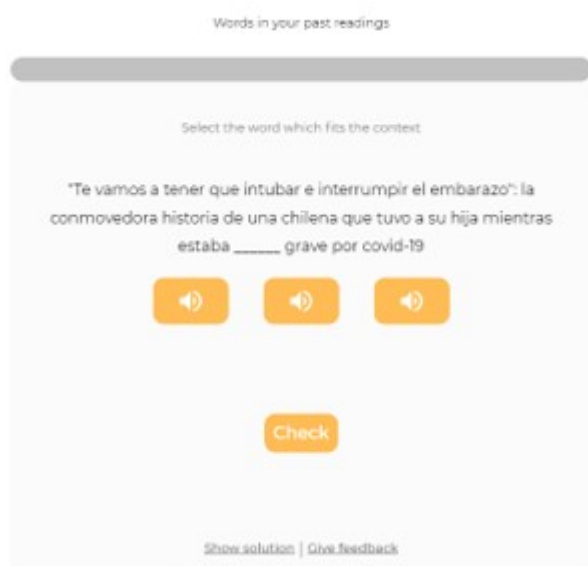

Fig 2. Audio exercise two.

1 2 3 4 5 6 7 8 9 10

Easier ☐ ☐ ☐ ☒ ☐ ☐ ☐ ☐ ☐ ☐ More difficult

Please elaborate why and in what way

As soon as I figured out what the voice was actually saying, I found this exercise rather easy.

The audio-based exercises are helpful for improving my pronunciation of words in the language I'm trying to learn \*

1 2 3 4 5 6 7 8 9 10

I don't agree ☐ ☐ ☒ ☐ ☐ ☐ ☐ ☐ ☐ ☐ I fully agree

Please elaborate why and in what way

In theory yes, but I really think the google-translate voice, kind of gives you the wrong idea about the pronontiation, at least on some of the words, but perhaps I just don't speak robot :/

The audio-based exercises are helpful for improving my listening skills in the language I'm trying to learn \*

Please elaborate why and in what way

Again, I find the google-translate voice to be a problem, as I don't think many people speak german the way it does.

Please elaborate if you have further comments regarding your experience with the audio-based exercises

Your thoughts on improvements for the Zeeguu exercises

In this section we'd like you to comment on potential improvements, big or small.

What would improve your learning outcome when completing Zeeguu exercises?

A bit more variation in the words used in the exercises would be nice, as I used it more like a general way to learn the language, but I see that if what you want is to learn a couple of difficult words, then it works fine.

What changes/improvements to the Zeeguu exercises would make you more motivated to learn?

Perhaps if you were able to define what your purpose with using Zeeguu was at the offset, and the exercises would be made accordingly, as I find that there is a significant difference between wanting to memorize a few tricky words, and wanting to learn a language in general.

What improvement would make the Zeeguu exercises more fun?

Perhaps if it had some sort of points system it would motivate you to keep going and improve your score, making it more like a game.

Please elaborate why and in what way

Listening to german is always a bit fun, and even though I've only given a score of 6, that's still pretty impressive for this kind of stuff!

How difficult did you find the exercises?

	1	2	3	4	5	6	7	8	9	10

Please elaborate why and in what way

Some where a bit frustrating, like spelling a german word of 12-15 characters with only 1 hint, but others where a bit too easy like parring only three translations.

Your experience with the audio-based exerices

Two of the exercise types included sound. In this section you must reflect on these exercises specifically.

German just sounds "funny" and learning a new language is not just spelling and translating. It's very much also sound and dictation.

Your thoughts on improvements for the Zeeguu exercises

In this section we'd like you to comment on potential improvements, big or small.

What would improve your learning outcome when completing Zeeguu exercises?

More and different kinds of scores than "these words were easy, these seemed hard" - that would motivate me.

What changes/improvements to the Zeeguu exercises would make you more motivated to learn?

Small "rewards" during each exercise session.

What improvement would make the Zeeguu exercises more fun?

Rewards, trophies and scoreboards with friends.

Please elaborate if you have further comments regarding your experience with the exercises in general

## Your experience with the exercises on Zeeguu

In this section, you will be asked to provide feedback and evaluate your experience with the exercises on Zeeguu.

Please rate from 1-10 how much you agree with the following statements:

The Zeeguu exercises makes me more likely to study a foreign language often.

1 2 3 4 5 6 7 8 9 10

I don't agree ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☒ I fully agree

Please elaborate why and in what way

I.e. it's challenging, interesting, rewarding etc.

Its rewarding, easy to use and I like that the vocabulary is formed from articles - it makes it feel more authentic and usable

I believe completing Zeeguu exercises regularly would make me learn more words in the language I'm studying.

I believe so because of the repetition and the context of the words from the articles. Also the combination of sound and text exercises is efficient

Please elaborate why and in what way

I think they weren't too difficult, but just the right amount. But that's maybe due to the level I chose, and that suited me well, because I liked to be able to get some exercises right. And then know that I could just change the level if I wanted the exercises to be more challenging

Your experience with the audio-based exercises

Two of the exercise types included sound. In this section you must reflect on these exercises specifically.

I think it helps to a broader learning of the specific language chosen, it feels like it's more easily applicable in real life when sound is included, because I imagine I would end up using the language to speak with locals on vacations for example

Please elaborate why and in what way

I was learning French, and the written words in French are just very different from how they are pronounced, so with that language it was especially helpful

Please elaborate if you have further comments regarding your experience with the audio-based exercises

I think it adds a very important dimension to learning a language, and it helped vary the exercises further

Your thoughts on improvements for the Zeeguu exercises

In this section we'd like you to comment on potential improvements, big or small.

What would improve your learning outcome when completing Zeeguu exercises?

I think the voices behind the audio-based exercises could be improved in the future, because sometimes they were a little difficult to hear. Also potentially including exercises where I would have to speak, could be an improvement for learning a language more in depth

What changes/improvements to the Zeeguu exercises would make you more motivated to learn?

I liked the way the vocabulary was built up and how you could see which words you needed to practice more, so maybe further use of this could motivate me

What improvement would make the Zeeguu exercises more fun?

I think the exercises were pretty fun now. Perhaps some visuals - like video or photos

Please elaborate if you have further comments regarding your experience with the exercises in general

Thank you so much!

Please elaborate why and in what way

I.e. it's challenging, interesting, rewarding etc.

They were challenging yes, but i liked how it was connected to the articles from the beginning, so there was some familiarity. Also the "hint" function worked well if it became too challenging.

I believe completing Zeeguu exercises regularly would make me learn more words in the language I'm studying.

Please elaborate why and in what way

I already learned quite a lot from these few days, so yes I definitely think it would make learning easier. The concept works good. Also it just takes a few minutes to finish one exercise which means it doesn't feel like an incompressible amount of work to learn a few words.

I believe completing Zeeguu exercises regularly would make me remember learned words more efficiently.

Please elaborate why and in what way

Yes because you keep exercising the words that you got wrong the first few times, so you only advance to new words if you have actually learned the ones you picked first.

How fun did you find the exercises?

	1	2	3	4	5	6	7	8	9	10

Please elaborate why and in what way

Well, fun is relative. But for a learning based exercise it was good, i liked how there was different kinds of exercises where you had to think about the word in different ways.

How difficult did you find the exercises?

	1	2	3	4	5	6	7	8	9	10

Please elaborate why and in what way

Well i might have picked a language i was too unfamiliar with before I started, i think this might better suite someone that already knows at least a little bit of the lean gauge beforehand.

How difficult did you find this exercise compared to the existing text-based ones? \*

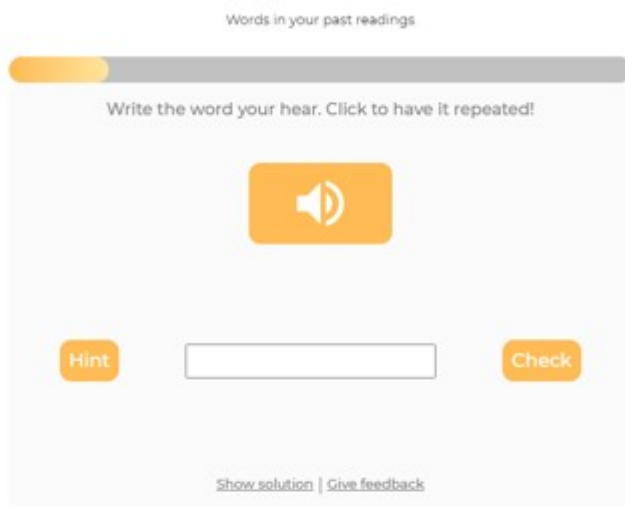

Fig 1. Audio exercise one.

Please elaborate why and in what way

Well.. It definitely varied from word to word, alle exercises fluctuated in difficulty according to the specific word, and how hard it was, but if it was a particularly hard word, then the audio based exercise was also the hardest to solve. But also vice versa, the audio based exercise was the least difficult for the easiest words.

Definitely. Pronunciation of new languages doesn't just make sense to most people(me included), and words can be pronounced in ways that would surprise you, if you'd only read them.

Your thoughts on improvements for the Zeeguu exercises

In this section we'd like you to comment on potential improvements, big or small.

What would improve your learning outcome when completing Zeeguu exercises?

Perhaps if you could go into a kind of "statistic" and see the words that you have already "unlocked".

What changes/improvements to the Zeeguu exercises would make you more motivated to learn?

My answer from above, to help me see how "far" i have come.

What improvement would make the Zeeguu exercises more fun?

I don't really know tbh. Perhaps som happy sounds when you successfully finish an exercise.

## Your experience with the exercises on Zeeguu

In this section, you will be asked to provide feedback and evaluate your experience with the exercises on Zeeguu.

Please rate from 1-10 how much you agree with the following statements:

The Zeeguu exercises makes me more likely to study a foreign language often.

I don't agree

☐☐☐☐☐☐☐☒☐☐☐

I fully agree

Please elaborate why and in what way

I.e. it's challenging, interesting, rewarding etc.

It's a fine way of learning. But the German machine pronunciation was very poor, so it was difficult to do/hear the right words in the exercises.

I believe completing Zeeguu exercises regularly would make me learn more words in the language I'm studying.

1 2 3 4 5 6 7 8 9 10

☐☐☐☐☐☐☐☒☐☐

I fully agree

Please elaborate why and in what way

Øvelse gør jo mester, så regelmæssig øvelse af de ord jeg havde svært ved at forstå, vil klart forbedre mit fransk. Rigtig fint at øvelserne er individuelle og tilpasset mit niveau. Men sjovt nok så kørte den meget på de samme øvelser og ord hele tiden. En del af de ord jeg markerede, fik jeg aldrig øvelser med.

Please elaborate why and in what way

Generelt set sjovt og lærerigt, men nogle af øvelserne drillede lidt. Fx når der var tre mulige svar at høre, så kunne jeg nogle gange kun høre dem én gang hver. Jeg ville gerne kunne høre dem flere gange. Og endnu mere ved de øvelser, hvor jeg skulle skrive det de sagde, der ville jeg gerne kunne høre dem flere gange, evt. gerne langsomt og så ville det være godt hvis den kunne vise, hvad der var forkert. Det der hint, som kun var begyndelsesbogstavet, kunne jeg ikke rigtig bruge til noget.

Please elaborate why and in what way

Nogle var teknisk udfordrende, fx fordi jeg kun kunne høre lyden en gang. Dem, hvor jeg skulle høre et ord og skrive det, var super svære, fordi fransk ikke helt skrives som det udtales. Nogle øvelser blev for nemme, fordi de var i nøjagtig samme kontekst, som i artiklen. Dermed lærte jeg at huske dem i konteksten, men jeg er ikke sikker på at jeg ville kunne bruge ordet selv i en ny sammenhæng.

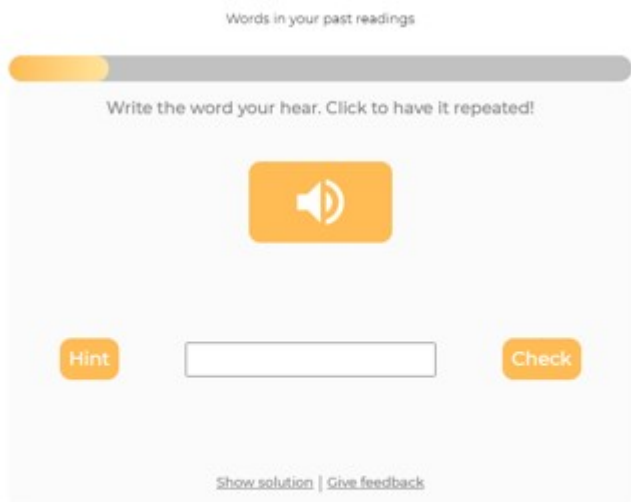

Fig 1. Audio exercise one.

1 2 3 4 5 6 7 8 9 10

Easier ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☒ ☐ ☐ More difficult

Please elaborate why and in what way

Den var ofte rigtig svær. Teknisk når jeg kun kunne høre ordet én gang og jeg havde svært ved at forstå det. Andre gange fordi fransk ofte staves meget anderledes end det skrives. Jeg ville gerne kunne høre ordet mange gange og også langsomt og tydeligt. Hintknappen gav mig kun forbogstavet og det var lidt træls, når jeg fx var i tvivl om anden halvdel af et ord. Så jeg endte desværre ret tit med 'Show solution'. Til gengæld føltes det jo som en kæmpesejr, når jeg så kunne. Jeg ville ønske at checkknappen markerede det jeg havde skrevet, så jeg kunne se, hvad der var rigtigt og hvad der var forkert. Med farver eller overstregning eller lignende.

Please elaborate why and in what way

Den er lidt sværere, især fordi jeg oftest kun måtte høre ordene én gang. Men da jeg blev klar over det, så var det jo bare med at koncentrere sig og så gik det som regel fint.

Det hører jo med til at lære et sprog at kunne forstå det talte sprog og også selv at kunne udtale det. Ved at kunne høre hvordan ordene udtales udvides mine sprogkunderskaber, men hvis det skal forbedre min udtale, så skal der også være øvelser, hvor jeg skal udtale ord.

Lyd er en super vigtig del af at lære sprog og jeg kunne sagtens forestille mig mange flere øvelser med fx hele sætninger og at jeg selv skulle udtale ord, som det vigtigste.

Your thoughts on improvements for the Zeeguu exercises

In this section we'd like you to comment on potential improvements, big or small.

What would improve your learning outcome when completing Zeeguu exercises?

Lyd er en super vigtig del af at lære sprog og jeg kunne sagtens forestille mig mange flere øvelser med fx hele sætninger, der bliver læst op, og hvor jeg så skal vælge de rigtige ord blandt mange i den rigtige rækkefølge, og at jeg selv skulle udtale ord, som det vigtigste.

What changes/improvements to the Zeeguu exercises would make you more motivated to learn?

Jeg vil gerne kunne høre ord flere gange og gerne langsomt. Jeg vil gerne have mere hjælp til hvad der er rigtigt og hvad der er forkert i det jeg har skrevet. Jeg vil også gerne have de ord jeg øver i en ny kontekst, så jeg ikke kun lærer at huske dem i den specifikke artikels kontekst.

What improvement would make the Zeeguu exercises more fun?

Noget visuelt med point eller hvor meget jeg har forbedret mig.

Please elaborate if you have further comments regarding your experience with the exercises in general

Rigtig godt at tage udgangspunkt i rigtige artikler og at jeg ved at lede efter oversættelse finder de ord, som jeg har brug for at øve.

Your thoughts on improvements for the Zeeguu exercises

In this section we'd like you to comment on potential improvements, big or small.

What would improve your learning outcome when completing Zeeguu exercises?

At blive mindet om at lave dem, en lille push notifikation eller lignende. Det var sjovt at skrive sig op til og læse lidt i gennem men det blev også hurtigt glemt

What changes/improvements to the Zeeguu exercises would make you more motivated to learn?

Belønning, om det er et trofæ efter 5 dages øvelser i streg eller det er en lille nisse der danser hvis man svarer rigtigt

What improvement would make the Zeeguu exercises more fun?

Igen tror jeg at jeg ville finde noget visuelt sjovt

Please elaborate if you have further comments regarding your experience with the exercises in general
